JOB DESCRIPTION & REGISTRATION LINK

Company Name :	Tata Elxsi
About Company :	<p>Tata Elxsi commenced its business on 5th May 1989 in Bangalore, the Silicon Valley of India, to develop and promote applications of electronics, embedded systems, and software. The Mission was to foster innovation in the fast-emerging IT market and accelerate the adoption of leading-edge technologies. Today, Tata Elxsi is recognized as a premium engineering service provider worldwide and amongst the leaders in the automotive, media, broadcast, communications, and healthcare industries.</p> <p>Tata Elxsi brings together the best technology and user-centric design expertise to help customers deliver innovative solutions and great consumer experiences. Our integrated Design and Technology teams help enterprises reimagine their products and services - from strategy, consumer research and insights, to service and experience design, technology implementation, integration, launch, and beyond.</p> <p>At Tata Elxsi we work closely with customers - right from advanced R&D in new technology and system architecture exploration to actual development, validation, and deployment. This includes emerging technologies such as IoT (Internet of Things), cloud, smart mobility, and artificial intelligence. Thereby creating new opportunities for businesses to improve operational efficiency, reduce costs and deliver new services to their consumers.</p>
