MARKET SITUATION BEFORE COVID 19

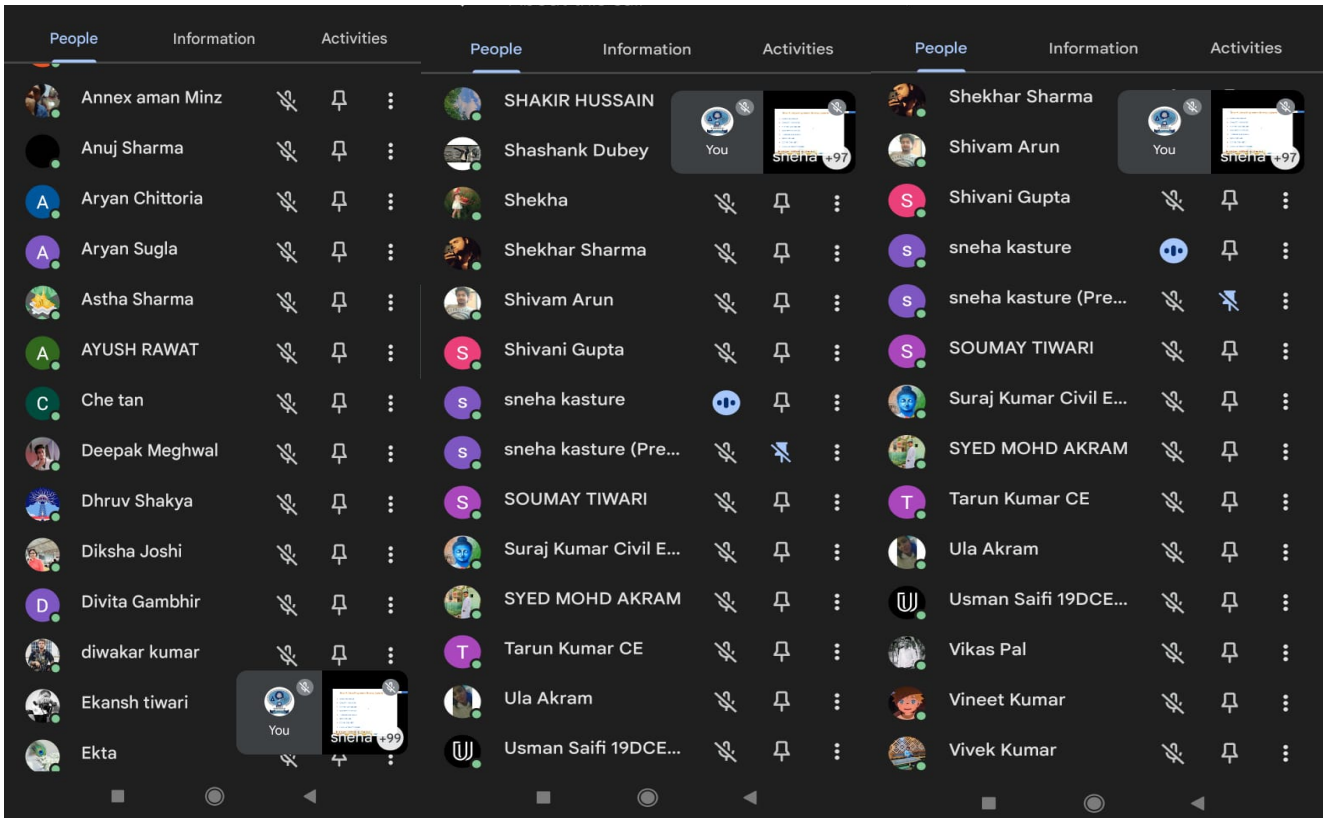

- Civil engineering is expected to be very popular because existing structures will require replacement. In this technologically advanced world, with population growing and infrastructure aging, civil engineers will expect to have a steady employment in the future. However, exact numbers of civil engineering jobs will depend on a country's construction needs, which indirectly rely on the economy.

Junior Engineer Skill Development Programme **PROGRESSIVE EXPERT**

3:47 PM | cqf-gwjy-pps

Participants: sneha kasture, Aryan Sugla, Shivam Arun, 67 Shivani, Shashank Dub..., diwakar kumar, 92 others, You.
