## Report on “Spart Shark: Innovative Edition”

**Dated:** 14/03/2024

**Department:** Electronics and Communication Engineering

**Venue:** Smart Classroom, 5<sup>th</sup> BLOCK

**Objective:** The event highlights the significance of innovation in addressing global challenges and driving progress. It emphasizes the diversity of participants and their ideas, underscoring that innovation resides within everyone. The event aims to showcase transformative projects and inspire active participation in the journey of innovation. Overall, it's a call to action to ignite the spark of creativity and collaboration for a brighter future.

### **Activities:**

The Electronics and Communication Department organized an event for second and third-year students. The event was chaired by Judges who evaluated the teams based on their innovative ideas, presentation skills and response to the questions posed by the judges on the idea

### **Key points:**

1. A total of 10 Teams participated in the event.
2. Each Team was given a time of 15 minutes to display their innovative idea via presentation.
3. Each team was questioned by the judges and evaluated based on their idea, technological clarity of thought and idea feasibility in the current market trend.

**Outcomes:** Students presented ideas with enthusiasm and answered with valour.
