REPORT
CODING MANIA

Date of Event: 13th March 2024

Venue: AIML Lab (2203)

Objectives: To enable students to gain insights into competitive programming and facilitate better learning with hands-on experience.

Activities: Coding competition

Key Takeaways:

- To get knowledge about various data structures.
- To solve problems in a limited time frame.

Description: The Department of AIML has organized a coding competition “CODING MANIA” on 13th March 2024. This event was hosted by the students of Artificial Intelligence and Machine Learning (AIML). Our coding challenge was designed to foster creativity, collaboration, and problem-solving skills among aspiring programmers and tech enthusiasts.

Whether you're a seasoned coder or just starting your journey in programming, this event offered something for everyone. AIML students and faculty were there to provide guidance, mentorship, and technical assistance throughout the event. It was a great opportunity to learn from experienced mentors and expand my knowledge base.

This event gave a chance to win exciting prizes for outstanding performance. Whether it's the most innovative solution, the fastest implementation, or the best teamwork, there were plenty of opportunities to showcase your talents and be rewarded for your efforts.

Outcomes: 58 students benefited from this event as they took part in this event.

Beneficiaries: AIML students.
