REPORT

Guest Lecture

“Networking Models & Their Working”

Date of Event: 26th April 2024

Venue: AIML Smart Room (2202)

Objectives: The objective is to enrich the understanding of networking using Open Systems Interconnection, and provide them with valuable insights OSI Model’s layers and how do they work in real-time.

Delegates (Speaker): Dr. Gaurav Aggarwal, Associate Professor & Research Coordinator, Jagannath University

Activities: Guest Lecture on “Networking Models & Their Working”

Key Takeaways:

- Practical Application
- Technological Exposure
- Different Layers
- Professional Insights
- Hands-on Experience

Description: The Department of AIML has organized a guest lecture on 26th March 2024. Dr. Gaurav Aggarwal introduced himself to all the students attending the interaction and started off by introducing the topic of the “OSI Model” while speaking about his personal experiences and knowledge gained through his journey in the field. He started the lecture through an interactive gesture by asking students about the OSI Model. He then went on to explain the layers in the model and how it is used. Throughout the lecture, he kept giving real-life examples which kept it quite interesting and was very informative.

Outcomes: 58 students along with 8 faculty members benefited from the guest lecture.

Beneficiaries: Students of the AIML Department.
