Industrial Visit to ATAL ACADEMY AND IDEA LAB

The Motive of Industrial Visit is to provide students a chance to learn practically from theoretical knowledge through interaction, working methods, and employment practices in large industries. It gives exposure to current work practices against possibly theoretical knowledge being taught at school or in colleges. Industrial visits provide a wonderful opportunity to interact with industries and know more about the industrial environment, how the machines are working, and which principles they work for. The Industry Expert Took an Advance lecture on Technologies which are in Trends for better understanding of Students and shows live Industry Based Projects. Students participated with great enthusiasm and showed their interest by raising queries.
