REPORT

Alumni Talk - Ms. Tanisha Bansal

Date of Event: 26th February 2026

Venue: Auditorium

Objectives: To introduce students to the basics of AI/ML, its applications, and provide a clear pathway for building a career in this field.

Speaker: Ms. Tanisha Bansal, currently working as a Software Engineer – at SITA

Activities: Alumni talk, interactive demo, and Q&A sessions to guide participants through AIML fundamentals and future opportunities.

Key Takeaways:

- Gained a structured roadmap to begin and advance in AIML.
- Exposure to real-world applications of AI and ML across industries.
- Inspiration and clarity on career paths, tools, and skills required in AIML.

Description:

The Department of AIML organized the “Alumni Talk” event on 26th February 2026 to provide students with insights into one of the most promising fields in technology today. The session highlighted the significance of Artificial Intelligence and Machine Learning in shaping the future and aimed to simplify the journey for students entering this domain.

The event included detailed discussions on the fundamentals of AIML, current industry trends, and practical applications in areas such as healthcare, finance, and automation. Experts emphasized the skills required — from programming and mathematics to problem-solving and ethical considerations — providing participants with a realistic view of the AIML career pathway.

Interactive sessions allowed students to ask questions, clear doubts, and gain actionable tips for building strong foundations. The roadmap covered beginner-friendly resources, project-building approaches, and advanced opportunities such as research, internships, and higher education in AI/ML.

Judges and mentors evaluated the participants' curiosity, clarity of understanding, and engagement during the event. Overall, the program successfully fostered enthusiasm, awareness, and direction among students, motivating them to confidently take their first steps into the AIML field.

Outcomes: 140 students benefited from the guest lecture.

Photographs of event with the title: Alumni Talk

The poster is for an event titled "Are You Building Your Future in the Age of AI?". It is organized by the IT Department in association with the AIML Department. The guest speaker is Tanisha Bansal, a Software Engineer at SITA. The event is scheduled for February 26, 2026, at 11:30 AM onwards in the Auditorium at ADGIPS. The poster includes logos for ADG Institute of Professional Studies and BBD. The main title is in large blue font, and the session overview and highlights are in smaller black font. A photo of Tanisha Bansal is on the right side of the poster.

The IT Department, in association with AIML Department, organizes

Are You Building Your Future in the Age of AI?

Guest Speaker

Session Overview:
Learn how to use your college years strategically by combining academic learning with real-world skills, projects, and smart career planning in today's AI-driven world.

Seminar Highlights

- ✓ The role of skills & projects in career growth
- ✓ Developing a "builder mindset"
- ✓ Career paths in AI, tech & research
- ✓ Using AI responsibly for learning
- ✓ 1st–3rd year roadmap for skill building
- ✓ Industry insights & early mistake avoidance

Outcome for Students:
Students will gain clarity on career direction, identify key skills to focus on, and leave with a practical roadmap to build projects, use AI effectively, and grow with purpose.
