

Department of Electronics & Communication Engineering
ADGIPS, New Delhi
R & D Committee

Date: 25th Aug, 2026

Roles & Responsibilities

1. Faculty Research Committee:

The Faculty Research Committee shall be constituted by the HoD and shall work in coordination with the R&D Coordinator. The committee shall specifically support and motivate the faculty members of the department to achieve the department's R&D objectives.

2. R&D Goals:

Identify, prioritize, monitor, and continuously improve short-term and long-term R&D goals of the department.

3. Balance R&D Activities:

Maintain an appropriate balance between research, academic development, innovation, consultancy, and other professional development activities.

4. Development Objectives:

Facilitate the achievement of short-term and long-term research and professional development objectives of faculty members.

5. Resource Utilization:

Promote effective and optimum utilization of available research infrastructure, laboratory facilities, software, funding, and other institutional resources.

6. Research Proposals and Funding:

Encourage and guide faculty members in preparing effective research proposals for submission to various government and non-government funding agencies.

7. Research Guidance and Quality Improvement:

Provide guidance and support to faculty members and research scholars/staff to improve the quality and standard of academic and research activities.

8. Professional Development:

Encourage faculty members to organize and participate in conferences, STTPs, workshops, seminars, training programmes, and Faculty Development Programmes (FDPs).

9. Publications, Innovation and Patents:

Create awareness and motivate faculty members towards quality research publications, research contributions, innovation, intellectual property generation, and patent filing.

10. Implementation of R&D Initiatives:

Facilitate and monitor the execution of research and development initiatives planned by the HoD and the department.

11. Research Culture:

Promote a strong research culture within the department by encouraging

interdisciplinary research, collaborative projects, industry interaction, and knowledge sharing among faculty members.

12. Monitoring and Reporting:

Periodically review the progress of R&D activities and maintain appropriate records and reports for departmental review, accreditation, and institutional requirements.

Committee:

S.NO.	NAME	ROLE
