Dated: 19/02/2026

REPORT

Roast or Defend

Date of Event: 19th February 2026

Venue: Smart Room (2202)

Objectives:
The objective of the event was to promote critical thinking and structured discussions on Artificial Intelligence. It aimed to enhance public speaking, logical reasoning, and teamwork skills among students while providing an engaging and competitive learning environment**.**

Activities:
The event was conducted in multiple rounds where participants were divided into two sides to roast or defend AI-related topics. Role reversal in subsequent rounds tested adaptability and depth of understanding. Topics were displayed on the smart board, and participants followed time-based speaking rules. Judges evaluated performances based on clarity, logic, AI relevance, rebuttals, confidence, and teamwork, after which winners were announced and certificates were distributed.

Key Takeaways:

- Better understanding of AI concepts and their real-world applications.
- Improved communication and argumentation skills.
- Increased confidence among participants, especially first-time speakers.
- Encouraged analytical thinking and respectful exchange of ideas.

Description:
The Department of AIML organized “Roast or Defend” on 19th Feb 202 in Smart Room (2202). Roast or Defend was an AI-themed debate event that encouraged students to express diverse perspectives on emerging technologies. The event created a lively and intellectually stimulating atmosphere, with participants actively engaging in discussions related to the ethical, technical, and societal impact of Artificial Intelligence. The format ensured equal participation and promoted healthy, respectful debate.

Outcomes:
The event witnessed enthusiastic participation and positive engagement from students. It helped identify students with strong analytical and speaking abilities and contributed to interdisciplinary learning. Overall, the event successfully met its objectives and was well appreciated by participants and faculty members.
